is the representative of our company in Jordan for automation and industrial systems.

Siemens will support Kettaneh and their partners Messers TECO being Siemens Authorised System Integrator for SIMATIC in all coming building management projects and particullary the Arab Bank Project in Amman using Siemens well known systems S7 and WIN CC.
Siemens will provide Kettaneh & TECO full support technically, consultation and training.

SIMATIC and WinCC is widely used worldwide in building management systems. There are much more applications in office buildings, stadiums, banks, airports or hospitals.

Kettaneh and TECO had allready achieved successfully many projects in Industrial and Water Sectior using these systems.
